

12 November 1959

Dr. Arch C. Gerlach
Chief, Map Division,
Reference Department
Library of Congress
Washington 25, D. C.

Dear Dr. Gerlach:

The plan you suggest for placing restrictions on Agency unclassified maps that would be supplied the Library of Congress appears to be entirely adequate. Keeping these maps from public catalogs and published bibliographies, and generally not allowing them to be associated with the Agency as producer are the primary objectives in requesting restrictions.

Marginal information, unless it is directly related to the Agency, need not be removed from individual maps prior to filing and use.

Within the next several weeks we shall review our production for the past two years and select those maps (one copy each) considered suitable for transfer to the Library of Congress. Automatic distribution will continue into the future.

Sincerely,

25X1A9a

Chief, Geographic Research
